“Development on the margin”

Migration Consultation

RODNEY GNANAMANY

Asset Gold (PVT) Ltd, Migration, Sri Lanka

Abstract

MIGRATION CONSULTATION

A Comprehensive Look at Asset Gold

Migration has been a continuous and hot topic in Sri Lanka . Scores of Sri Lankan leave the shores of their motherland armed with bundles of hopes that the grass is greener on the other side with aspirations of becoming somebody. Though there are a number of those who realise their dreams amidst all odds, there are several unsuspecting Sri Lankan who get hoodwinked by unscrupulous agents or so called consultants leaving them utterly disillusioned about their dream of reaching greener pastures. We are trying our best to prove that all consultants are not rogues. My advice is Fear of failure is often worse than failure itself. Be prepared with you qualifications and experience because pressure comes from being unprepared.

I juggle such a demanding job and still manage to spend time with my parents at home?

To start from the beginning I studied at Alexandra College . After my A/L's I started my BBA course while was working as trainee Marketing executive N.Vaitilingam Co in Colombo . Then I worked in different companies to get my marketing experience in different field, salary was not my main target. My father has been my strength. He gave me the strength and provides the opportunity to expand because he notices my potential to grow.

I work on a strict schedule; I meditate every day which gives me an enormous amount of strength to focus on my goals and improves my level of concentration.

I take a break on Sundays and spend quality time at home.
