GLRD unveils new improved website, r

The Gender and Land Rights Database (GLRD) is a new online platform developed by the Food and Agriculture Organization of the United Nations (FAO) to provide a comprehensive and improved website in an effort to

Land is a crucial resource for poverty reduction, food security and rural development. However, men and women do not always enjoy the same rights to land.

Exploring the Gender and Land Rights Database (GLRD)

Learn more about the different factors that relate to gender inequalities embedded in land rights by exploring the country profiles, gender and land-related statistics and the recently-developed legislation assessment tool (LAT).
